R. H. McDONALD & CO.,

WHOLESALE

DRUGGISTS

San Francisco Cal.,

Call the attention of Dealers to their large assortment of "Newly Arrived" Goods, composed in part of the following articles, together with every thing kept in a well supplied WHOLESALE DRUG STORE.

FRESH DRUGS, PATENT MEDICINES, TRUSSES & SUPPORTERS, ESSENTIAL OILS, KEROSENE OIL, TILDEN'S PREPARATIONS, DRUGGISTS' SUNDRIES, SHAKER HERBS, PERFUMERIES, PAINTS AND OILS,

Which we offer at the lowest Cash Prices, and are determined not to be undersold.

R. H. McDONALD & CO., SAN FRANCISCO, CAL.

For Sale.

OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and other countries far beyond, we are necessitated to devote our entire time to the said business.

We are the Oldest Drug firm on the Pacific Coast and be only one, continuous under the same proprietors since 1848, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

For particulars enquire of

R. H. McDONALD &CO., Wholesale Druggists, San Francisco.

R. H. McDONALD, J. C. SPENCER.

N.B. Until a sale is made we shall continue our importations and keep a large stock of fresh goods constantly on hand, and sell at prices to defy competition

A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor. R. H. McDONALD & CO Druggists and Gen. Agents, San Francisco, Cal. and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

Notices.

Public Notice to Mariners.

I AM DIRECTED BY THE HON THE Minister of Marine and Fisheries of the Dominion of Canada to publish the following Notice to Mariners, which has been issued by the Hydrographer to the Admiralty, London. B. W. PEARSE.

Lands and Works Department, Victoria, B C, Oct 23, 1871.

Notice to Mariners.

(No. 68)

NORTH AMERICA.—WEST COAST.

Buoys at the Entrance of San Francisco Harbor.

INFORMATION HAS BEEN RECEIVED that three Fairway Buoys have been placed as a guide for vessels crossing the Bar and entering San Francisco Harbour.

These buoys are placed in line with Fort Point, bearing N E ¾ E.

Outer Buoy—Black and White, is outside the Bar in 13½ fathoms, with the Middle Buoy bearing N E ¾ E, 5¼ miles and Fort Point 10 miles distant.

Middle Buoy—Black and White, is in 9½ fathoms with the Inner Buoy bearing N E, ¾ E, 2⅝ miles, and Fort Point 4¾ miles distant.

Inner Buoy—Black and White, is in 20 fathoms, between Bonita and Lobos Points, with Fort Point bearing N E, ¾ E, 2 1-6 miles.

Four Fathom Bank—Also, that the four fathom bank is marked by two black buoys The buoy off the west end lies W by S ¾ S, 3¼ miles from the buoy off the east end of the bank. The east buoy is in 5½ fathoms, W by S ¾ S, 1½ miles from Bonita Point.

It is said the west buoy cannot be depended on as remaining in position;

(All bearings are magnetic. Variation 15° 50' Easterly in 1871.)

By command of their Lordships, GEO. HENRY RICHARDS, Hydrographer.

Hydrographic Office, Admiralty, London, 28th August, 1871.

This notice affects the following Admiralty Charts—San Francisco Harbour, No 591. oc24 1m

MR. HELMCKEN

MAY BE CONSULTED AT HIS OFFICE Victoria between the hours of 9 and 12 in the morning at his residence, James Bay, in the evening.

oc4

A Mischievous Statement Refuted.

IN LAST SUNDAY "COLONIST" AND succeeding issues appeared a card addressed to Bricklayers in which inducements are held out to that branch of trade to come to Victoria for work. The card is mendacious and mischievous. There is not at Victoria sufficient work to keep fully employed the Bricklayers already here, who during the past two years have not been more than half employed, while others have had to go to San Francisco to obtain the work they could not get here.

Oct 12, 1871. BRICKLAYERS.

WANTED,

A MILLINER & SALESWOMAN FOR the Showroom, Victoria House.

oc17 WILLIAM DENNY, Manager.

THE BRITISH COLONIST.

Sunday Morning, Nov'r 5, 1871.

The Indian Department.

Amongst the many changes incident to Confederation, that of the transfer of the management of Indian affairs to the Federal Government is not the least important. It is a truly gratifying reflection that, while the Indian policy, so-called, of the neighboring Republic has proved to be one of "civilizing the aborigines off the face of the earth," that pursued by the Dominion of Canada has been singularly successful in its operations and benignant in its results. On the south of the forty-ninth parallel of latitude the native tribes are being decimated by disease and the avenging rifle of the U S troops. On the north of it they are not only increasing in numbers, but they are rapidly becoming both civilized and Christianized and are everywhere settling down to civilized industry. We are quite aware that on the other side of the line the popular doctrine is "extermination of the aborigines,"—and, in that view, the policy adopted by the Government may possibly be entitled to be regarded as, upon the whole, tolerably successful. Yet, looking at it simply in the light of the gold and the blood it has cost the nation, we think it will be found to have been a very expensive policy. Viewed in the higher light—the light of Heaven's justice—the case is still worse. For our own part, we prefer the policy under which the poor Indians increase and become happy, intelligent, loyal and industrious subjects. We say it is a happy reflection that the Indians of British Columbia are to become the subjects of such a successful and truly beneficent policy. A change for the better is not unneeded, for it must be admitted that little effort has ever been made by the local Government towards improving the condition of the natives. The victims of the vices of civilization, they have for the most part yet to taste its blessings, at least in so far as the Government is concerned. Whatever has been done towards ameliorating their social and moral condition is due to Christian effort, and we are happy to know that such effort has not been thrown away. As has been remarked, the Indian Department will constitute an important one in this Province. It will be important from the fact that everything therewith connected has yet to be created out of chaos. It will be important in view of the number of Indians whose affairs are to be administered thereunder. The Indians of Canada proper only number 25,673; those of the North West or Hudson Bay Territories 42,870; while those of British Columbia and its dependencies are popularly reckoned at about 50,000. It is presumed that the Federal Government will appoint an Indian Agent or Commissioner, under whose immediate supervision the Indian affairs of British Columbia shall be administered. Very great care should be exercised in the selection of such an officer.

The Exposure and its Lessons.

A free and truly independent Press is feared and hated alike by the tyrant and illdoer. "Give me a free and untrammelled Press," said Victor Hugo, "and I will sweep away every despotic Government from Europe." The fatal and growing indifference of rate-payers had permitted the administration of the civic affairs of this community to fall into a condition involving gross abuse. Certain facts came within the knowledge of the publisher of this journal which admitted of no doubt as to the path of duty. The task was no pleasant one, but it was at least fearlessly performed. The City Council winced under our drastic treatment. Some of its less discreet members threatened an action at law and imputed improper motives; but we were not to be intimidated. We knew that they must learn the truth of Byron's words,—

"Methinks I hear a little bird that sings,
The people yet will be the stronger."

We felt assured that these were not times when the right of criticism by a free Press, backed by truth and an honest desire for the public welfare could be put down by a questionable power, pursued by an equally questionable animus, and we refused to surrender the right to proclaim the truth and protect the public interest, despite the frowns and threats of any party. Although the result may not be all that could be wished, yet it is, perhaps, all that could be expected under the circumstances. Had the irate City Fathers proceeded by "criminal information," as there appeared at one time to be a prospect of their doing, the public would have then been enabled to reach certain specific individual acts which will now, in all probability, never meet the public eye in all their deformity, and thus individual misdoing may escape judicial punishment. But morally the guilty parties stand convicted before the bar of public opinion and their sentence will be pronounced in due time. Here is a singular appositeness of coincidence to be found in the fact of these exposures and inculpations taking place just at the happy moment when the minds of rate-payers were being directed to the duty of choosing representatives for the incoming civic year; and it is here that the lessons taught ought to exert a beneficial influence on the future. The rate-payers have been made to see that fatal slough to whose very brink past indifference has led them. Will they retreat? Or will they close their eyes and fold their hands and be dragged into it?

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hote and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

C FRANCIS BARNARD, M. D.

SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanites of the last 25 years.

We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

REPLY.

To James Trimble, A Recke Robertson, B P Griffin, G C Gerow, D Spencer, Richard Lewis, Esqrs, and other signers of the foregoing requisition.

GENTLEMEN,—I beg to return you my sincere thanks for the confidence you repose in me, as expressed by your desire that I should be Mayor of the City for the ensuing year.

I look on the office as one of honor and importance, yet I had no intention of soliciting your support for that for any other office at present; but after receiving a requisition like the one now before me, signed by so many influential and respectable citizens, I with pleasure accede to your wishes.

If elected, my aim will be to serve you faithfully and impartially.

I have the honor to be, Gentlemen,
Your most obedient servant,
W. J. MACDONALD.

The Yale Election.

Smith, Robinson and Coxon ahead so far as known.

THE "ME" CANDIDATE NOWHERE!

YALE, 4th Nov, 1871.

State of polls at the close:

LYTTON—Robinson, 5; Smith, 10; Coxon, 6; Semlin, 3; Kay, 4; Lumby, 0.

YALE—Robinson, 12; Smith, 14; Coxon, 8; Semlin, 5; Kay, 0; Lumby, 1.

HOPE—Robinson, 4; Smith, 4; Coxon, 1; Semlin, 0; Kay, 0; Lumby, 0. Total—Robinson, 21; Smith, 28; Coxon, 15; Semlin, 8, Kay, ("Me" candidate) 4; Lumby, 1. Yet to be heard from—Cache Creek, Rock Creek, Nicola, Kamloops and Okanagan.

Semlin is strongest in the country districts.

The Writs.

The following, from the Guardian's own correspondent in Canada, is of importance, and, if correct, the writs should arrive to-day,—

We had hardly got seated on board the Dominion stage coach, the Maple, bound east, when the following note from Sir J A Macdonald was handed to us, in relation to the election writs:

OTTAWA, Oct 10th, 1871.

DEAR SIR.—In answer to your letter of the 7th inst, I have to inform you that the writs for the election of six representatives in the House of Commons of Canada have been transmitted to British Columbia. These representatives will be able to take their seats next session. Three senators will also be appointed for the Upper House.

I am, dear sir,

Yours very truly,

JOHN A MACDONALD.

To ——.

Omineca.

The news is not encouraging from this locality. Germansen Creek is nearly deserted On Manson Creek the miners are said to ask no 'jawbone,' which is considered a good sign. On Slate Creek Harper, Guichon and others have located a supposed silver ledge. Myers' (late Skeleton) Creek flooded out the miners, who had sunk a shaft 64 feet deep. On Lost Creek a few companies are doing well. Vital and two other French men have gone on a six months' prospecting tour to the Findlay branch. Flour is 40c, tea $2, tobacco $3, beans 70c and scarce, rice $1, bacon $1 and scarce, sugar 75c, gum boots $16 per pair

FROM THE TETE JAUNE CACHE SURVEYING PARTY.—Mr M C Davis, in charge of the animals belonging to Mr Mahood's party, arrived in Barkerville on Tuesday. The expedition when he left, nine days previously, had reached a position on Castle River; apparently about 15 miles from Fraser River, the valley of which they saw below them. Mr Davis describes the pass discovered by Black and Fenton two years ago, and named by them D minion Pass, as too steep and high to be practicable for a rail way, the party in ascending from Swamp River having crossed a glacier fed by the mountain streams coming from the south side of the narrow gorge through which the route lies. They crossed, however, with the train safely and descended about 15 miles, following Castle River on the other side of the divide, when the season being so far advanced and about two feet of snow having fallen on the divide it was deemed prudent to return with the animals, the first which had ever crossed the range, and all of which came back uninjured and in good condition. The band of cattle in charge of Elwyn were a little on this side of the divide and getting on all right. C Barnes with about 25 horses was still with the party packing. Barnes' mule train, which went out with the last lot of stores, had "cached" their loads on Swamp River and returned The weather had been very wet and disagreeable ever since the expedition left Barkerville, which rendered traveling and cutting the trail rather tedious. On the eastern slope it was still mild and open. Mr Davis thinks that if a route for a railway through the Cariboo country is found from Tete Jaune Cache it will be farther north, as the mountain range now crossed appears to fall off considerably in that direction. He speaks in the highest terms of Mr Mahood's abilities as a mountain explorer, and his indefatigable energy in overcoming obstacles and faithfully carrying out the difficult task he has undertaken. Portions of the country crossed look favorable for gold being found, and a few colors had been got by merely washing a shovelful from the surface, but the members of the expedition had too much to attend to otherwise to be able to do any prospecting.—Cariboo Sentinel.

CARIBOO NEWS ITEMS.—The mining news is excellent. The Forest Rose took out 160 ozs and the Ballarat 55 ozs in one week. On Grouse Creek the claims are paying wages. Prospecting on Antler and French Creeks and Stout Gulch is actively prosecuted On Lowhee the Victoria co washed up 113 ozs and the Black Bull co 55 ozs. Jack of Cluba is yielding good wages. On Lightning the South Wales co washed up 327 ozs last week and the Spruce company are making wages.

H. M. S. ZEALOUS—Upon the very best authority we state that the timbers of this ship are in no wise impaired, and that there is not the slightest appearance of rot. The last time the ship was caulked, a thorough survey was had and the timbers found to be perfectly sound. The Zealous has many years of active service before her.

CRANBERRIES.—The bark A Cooper will carry away a quantity of Fraser River cranberries, which were shipped yesterday.

Cariboo Election—The Nomination.

From the Cariboo Sentinel.

Pursuant to proclamation a meeting of the electors of Cariboo District was held at the Court House, Richfield, on Monday, Oct 23rd, at 11 o'clock, for the purpose of nominating candidates for the Legislative Assembly. The Returning Officer, H M Ball, Esq, having read the writ, called upon the electors to select three fit and proper persons as their representatives.

Mr J H Todd of Barkerville proposed Mr G A Walkem. Mr Wm Dodd of the Ballarat co seconded the nomination.

Mr James Innes of Stout's gulch proposed Mr Joseph Hunter. Mr Daniel Mills of Lowhee seconded the nomination.

Mr John McAllister of the Ballarat co proposed Mr J S Thompson. Mr John Hudson of Nelson creek seconded the nomination.

Mr Robert Lipsett of Barkerville proposed Mr Cornelius Booth. Mr G L Shepherd of Barkerville seconded the nomination.

Mr Henry Calder of Cameronton proposed Mr John Evans. Mr John T Edwards of Lightning creek seconded the nomination.

The several candidates as proposed came forward and thanking their friends for the honor conferred on them, promised if elected to do their best for the interests of the districts.

The Returning Officer then called for a show of hands, which was in favor of Messrs Walkem, Hunter and Thompson.

A poll was demanded on behalf of Messrs Booth and Evans and Mr Ball announced that it would be held on Thursday, 16th November, at the several places specified in the election proclamation.

The Yale Election.

Our Exclusive Dispatch, received late last night, furnished the returns from Hope, Yale and Lytton polling divisions, with five precincts, representing about 40 votes, to be heard from. The returns indicate the probable election of Messrs Robinson and Smith, (Reform) and Coxon, (Independent) — but the friends of Mr Semlin (Reform) claim that his main strength lies in the farming districts —being himself a farmer—and that the vote of Cache Creek, Kamloops, Okanagan and Nicola will be cast for Semlin, Robinson and Smith. Kay, the 'Me,' *alias* Liberal, candidate, got but four votes in the three divisions heard from and is undoubtedly defeated The Me-ites are generally contented with small things, and lo! they are not disappointed in this instance. Mr Lumby, (Independent) it is expected, will poll a good vote in the country districts, he being, like Mr Semlin, a farmer.

Mail Left Behind.

Governor Trutch yesterday received the following dispatch from San Francisco:

SAN FRANCISCO, Nov 4, 1871

Prince Alfred took only the English mail The mail made up here was left behind by mistake. It goes to day by Ajax to Columbia river, and from there by the California, if she arrives in time. Otherwise, overland by special carrier.

J BERMINGHAM.

As the California will not 'arrive in time' the mails must come overland and will be here on Monday week.

LOWER RIVER ITEMS.—The Douglas towed the punt with seven of the buoys from the Sands and sailed for Nanaimo yesterday morning. The buoys will be repaired. In shipping one of the buoys on board the punt a quantity of water was also shipped, thoroughly drenching the men.....The barks Amelia and Ida F Taylor have arrived at Moody's Mills, where the bark China at Havana is loading....At the Hasting's Mills were the Jessie Stowe, the Nellie Hastings (loading for the Cape of Good Hope) the Kitty Coburn, Maud Helen, Leon and Clara Hargraves, all taking in cargo....The Onward has supplied the place of the Hope on the Fraser River—the latter having developed some defects in her feed pipe....The flour mill of Mr W J Armstrong is at work once more. A large amount of grain awaits the stones.....The Hyack Fire Company ask a Government grant for the support of the company.

FROM NEW WESTMINSTER.—The Enterprise arrived last evening at 5½ o'clock. On the up-trip she passed the Douglas coming down the river at 9 a m, yesterday, supposed to be bound for Nanaimo. The following came as passengers by the Enterprise: Mrs Walker, Mrs Chadsey, Miss Clarkson, Miss L Irving, Capt Irving, Capt McKinnon, Rev Mr Pollard, and Messrs P H Clarke, C G Major, D W Miller, G Dunbar, J Armstrong Howell, Walker, Gerow, Morrison, Tobolson Noltemier.

EX-COUNCILLOR RUSSELL.—Victoria loses the services of one of her most faithful citizens, Ex-Councillor Russell—who has been mentioned in connection with a nomination for the Council—in a card published this morning, declines a nomination. This is to be regretted. As a Councillor, Mr Russell had few equals, certainly no superior, and his withdrawal at this time will be universally regretted. Now, if ever, Victoria city requires the services of her best men.

MECHANIC'S INSTITUTE.—The annual meeting of this institution will be held on the evening of the 7th inst. Officers will then be elected and a proposition to reduce the annual rate of subscription considered. A reduction in the rate, in our opinion, would extend the usefulness of the Institute and increase its prosperity.

STOCK DISEASE AT COMOX.—Mr Maude of Comox called on us yesterday to state that the hoof and mouth disease, as prevailing in the States, is now known at Comox. A few cases of foot rot have occurred there; but it is the common complaint known in every country and liable to occur under the most favorable circumstances.

H. M. S. SCYLLA.—The rumor of a mutiny on board this war vessel, now at or near Valparaiso, can be traced to no reliable source. The rumor reached the Officers of the Fleet some days ago, and is supposed to have originated with a local celebrity when a little the worse for liquor.

BANK OF BRITISH COLUMBIA.—Mr Walter Powell, late Manager of the Cariboo branch, arrived last evening, and will be succeeded by Mr Fraser. Mr Powell will resume his connection with the Bank in this city.

CONFIRMATION.—On Sunday afternoon next the Order of Confirmation will be conferred upon a large number of young ladies at John's Church, by the Lord Bishop, assisted by the clergy of the Diocese.

CORONER.—The Lieut Governor has appointed F G Claudet, Esq, to act as Coroner in and for the District of New Westminster.

THE Cariboo mail failed to arrive last night.

SECOND CROP.—Yesterday we were shown a bunch of ripe raspberries, the second crop of the season and grown in the open air. How is that for Vancouver climate?

PAY your City Rates and secure a vote on Thursday next.

THE Guardian says the cranberry crop is in and falls short this year.

By Electric Telegraph

Exclusive to the 'Colonist.'

LAST NIGHT'S DISPATCHES.

Eastern States.

NEW YORK, Oct 3.—The address of the Committee of 70 adopted at the Reform meeting last night says: There is not in the history of villainy a parallel for the gigantic crime against property conspired by the Tammany Ring. In the very heart of Republicanism, an American city having a population of over a million is disfranchised by the open vote of the Legislature, born and matured in Democracy and Republicanism, and handed over to a self-appointed oligarchy to be robbed and plundered by men and confederates for six years and prospectively for ever. The new city charter gave a gang of thieves power to govern the metropolis. It substantially deprived citizens of self-control, it nullified the right of suffrage, the principle of representation and authorised a band of resolute robbers to levy taxes, to create a public debt, to incur municipal liabilities without limit and placed at their disposal revenues of the great municipalities and the property of its citizens.

It is expected Tweed will pay the Neisset claim of $42,000

Is is admitted on all hands that Ingersol, Garvey and Woodward have escaped from justice and are not likely to return of their own accord.

Deputy Controller Morton is ready to pay the Recorder and City Judge's salaries, and thinks then entitled to the sum fixed by Legislature—$10.000. The Supervisors afterwards placed their salaries at $15 000. This was unratified by the Legislature and the Deputy Collector was willing to pay them only $10.000. Green yesterday made further removals of Court attendants and employees in Controller's Office. The payment to the 2100 men employed on the Aqueduct has been completed. The police were also paid yesterday, and $10.000 was placed to the credit of the Department of Parks.

—In his speech last night Tilden said he had been approached by the Tammany officials, and bribes of office and other considerations had been offered to him to desert the Reform Party.

The Judicial Code was modified by Judge Barnard this morning so as to prevent the issue of 15 million dollars worth of bonds which were negotiated for by August Belmont with the endorsement of Deputy Controller Green. He also granted a mandamus compelling the Bureau of Election to provide for the election of an Assistant Alderman.

Three hundred *Mormons* arrived here on Wednesday. They are chiefly from England and Scandinavia, and will leave this evening for Utah.

The President of the Long Island Sugar Refinery Company says that the reported embezzlement by the Secretary is incorrect, and that the affairs of the Company are in good condition.

Cyrus Olmstead, Independent candidate for the Assembly in the Fifth District, was yesterday arraigned at the Toombs charged with forging his grandfather's name. He was remanded for examination.

Europe.

LONDON, Nov 3—There is a general surprise that the Bank of England made no change in the rate of interest at the meeting of Managers yesterday. This circumstance is ascribed the fact that a loan is about to be placed in the market to meet the amount of their engagement arising out of financial failures of American houses.

Subscriptions to the Chicago fund this evening amount to £20.422. The Lord Mayor has remitted from the fund subscribed at the Mansion House, £36.550.

The steamship Peruvian and Ionia have arrived out.

VERSAILLES, Nov 3—It is expected that Jules Favre will be appointed Ambassador to Berlin.

Duke will resume his post as Ambassador to Rome.

HAGUE, Nov 3—The Convention for the transfer of the Dutch Settlements and Sumatra, on the Coast of Guinea, has been signed by the Dutch and British Governments.

LONDON, Nov 2—A compromise has been arrived at between the French and British Governments in regard to the Commercial Treaty. The notice of abrogation given by France is to be withdrawn, and the Treaty is to be continued in force with maternal modifications, the details of which have been agreed upon.

The International Copy Right discussion is being continued. Miss Braddon is renewing her complaints.

A serious railway accident is reported at Perth, Scotland.

PARIS, Nov 2—A deputation of American residents have presented Minister Washburne with a service of plate in recognition of the services afforded his countrymen during the siege and under the Communist rule.

BERLIN, Nov 2—The Workingmen's committee of this city have summoned a Congress of workmen to meet here on the 19th inst. The meeting is to organize a general strike for a reduction of the daily time of labor to 9 hours and for general increase of wages.

Second Dispatch.

Europe.

PARIS, Nov 3—Advices from Toulouse state that the disarmament of the National Guards has been successfully begun.

Intelligence has been received of the entire suppression of the insurrection in Algeria The natives generally are resuming labor.

TURIN, Nov 3—The Italian Government contemplate the fortification of the Alpine passes at the cost of some seven million francs.

LONDON Nov 3—The distinguished painter, Sir Edward Landseer, is seriously ill.

Eastern States.

NEW YORK, Nov 3—It is decided that if the Grand Duke Alexis arrives by Tuesday a parade will be held on Wednesday, provided he lands before going *incog* to Washington.

Ex-Sheriff O'Brien, the Reform candidate for Senator in the Seventh District, in a speech last night said,—There are fifty thousand men in New York who will not stand illegal interference. Should the police on Tuesday attempt to prevent them from voting or shield the rogues, they will hang the villains to the nearest lamppost.

This announcement was received with cheers and shouts.

LEWISTON, N Y, Nov 3—Two girls—Ida Brown of Bucksfield and Anna Woods of Hartford—to day leaped into the deepest channel of the falls with their arms interlocked, leaving their clothing on a rock.

CHICAGO, Nov 3—250 wooden buildings are in course of erection in the north division, 500 in the south and 150 in the west.

Permits for the erection of permanent buildings of stone and brick continue to be issued daily.

The Descent of Man.

EDITOR BRITISH COLONIST.—There is a class of philosophers whose endeavours to enlighten the public ignorance in by-gone days were not always appreciated, at least during their life-time. The present age is more generous, and grants its suffrages with greater readiness. Thus we have seen the wisdom of those who undertake to prove a marvellous antiquity for our race largely patronized: and latterly the transcendant speculations of Mr Darwin in regard to the genealogy of us poor bipeds have extorted wide-spread admiration. Of course I concur in all this: for to bring myself somewhat of a philosopher, in a small way, I have learnt not to feel surprised at the announcement of any theory, however apparently monstrous, or by whomsoever advocated. Hence, in regard to the origin of our species [speaking of ourselves, if it be permissible, in our presupposed human capacity,] I am nowise astonished—for astonishment is not compatible with the philosophic equanimity which I profess. Previous, it is true, to the recent stupendous revelations I might possibly have asked myself or another several questions, all of which under the new order of things—when admitted—will doubtless be solved to general satisfaction. I might, for instance, after having read a recent address by the Secretary of the Anthropological Society of Paris, Paul Broca, have enquired what proof beyond dogmatic assertion founded on partially known, and as I myself knew or thought I knew, gravely misapprehended facts, there existed for the defiant position which he and his colleagues had ventured to assume? I might have enquired how, supposing him to imagine he had proved his case, he proposed to dispose of the sole admitted record of our origin which has heretofore been generally accepted, and upon which simple-minded men, outside of the charmed circle, are still disposed to rely? I might have attempted to point out that, but for this revealed record and the mighty train of consequences that have ensued upon it, the condition of civilized man at the present day could not have become what it is—that Mons. Paul Broca and Mr. Darwin themselves, each in his several habitat, might have lived little improved, the one from the barbarism of his Gallic ancestors, the other from the wood-stained savage of Cæsar's Britannia: and I might have endeavoured to support my assertion by reference to the older semi-civilizations which have remained stationary while the European races have advanced, under admitted influences, from barbarism towards the pinnacle of scientific exhaltation. All this, I say, I might have urged during the nonage of my enlightenment: But with time I have grown wiser. Moreover, in doing so I might have come within the condemnation of Monsr. Broca, who even quotes Scripture for his purpose: "Leave we then, as the Scripture says, the dead to bury their dead, and let us pursue our work without occupying ourselves with the attacks of men of the past." One naturally shrinks from the risk of incurring an anathema so scathing.

N! I will not be a 'man of the past.' For the nonce, at least, I will navigate with the current. I will accept the inspirations for Mons. Broca. I will join issue with Mr. Darwin and admit [and indeed I cannot gainsay] the anatomical analogies which he widely displays to an admiring public. But while yielding this much I must demand some small concession in return. Granted the premises, therefore, I take permission to differ somewhat from the corollary deduced. In brief, I take the converse of the proposition; and while Mr. Darwin professes to show that Man has descended from the Monkey, I contend that he has literally *descended* into the Ape. Am I asked for my reasons? I reply that I assert the fact, and I defy disproof—for why should not I be permitted to dogmatise as well as another? Moreover, I won't be compelled to give a reason—nay, "were reasons as plenty as blackberries, I'd give no man a reason on compulsion." Never heless, why should I refrain from stating at least the heads of an argument leading to a decision so momentous? It will, then, I think be conceded that Man, when isolated, deteriorates from a high state of civilization more readily than the savage improves: just as the fruit of the flower, raised artificially to a high state of perfection, relapses by rapid gradations to its pristine condition when culture ceases. It is, however, worse with Man: for capable, as Mr Darwin shows, of illimitable improvement, there is no knowing to what depths of degradation he may not descend. Unlike the fruit or the flower he knows no stopping place—and in so far the analogy is a failure Thus isolated men of bygone days—hypothetical Robinson Crusoes, who chanced upon female Fridays, and had not the luck to be rescued from their seclusion like the celebrated friend of our school days—pro-created a race which, under difference of condition and climate, gradually assumed an altered aspect and diverse habits. From propounding syltogisms they got to cracking nuts; as inexpressibles wore out, or were ignored, Nature kindly replaced them with a substitute—hirsute and not very sightly garments, but close-fitting and commodious—for they required no buttons—and possessing this special advantage, that when accidently torn they repaired themselves: and so from one stage of degradation to another. But why should I pain the sensitive reader by tracing step by step this miserable transition? Besides it has been so eloquently described, conversely, by Mr. Darwin, that it would seem like plagiarism were I to attempt to do so. How, therefore, the various tribes of Monkey (the *Simiadæ*, to speak learnedly,) from M. le Chaillu's Gorilla downwards, acquired in time their specific differences: how a long tail became necessary to the one, a short one to another, a mere *bob* to a third: how the various families of our "poor relations" have remained stationary in their bestial condition during the four thousand years or so of recorded history, and why they have not improved back to manhood again; all these are questions for the satisfaction of which I refer the enquirer to the sage elucidations of Mr. Darwin.

But while ascribing all honor to this apostle of the age let us do justice. Be the palm to him who hath deserved it. Mr. Darwin, albeit I have ventured in some respect to differ from his conclusions, is doubtless entitled to very great respect for his assiduity, and the profundity of his views: but he is not the originator of the sublime conception that has conferred celebrity on his name. A hundred years ago a certain Lord Monboddo, a Lord of Session in Edinburgh, and also in his generation a celebrity, though in rather an invidious sense, propounded a theory identical with that of Mr. Darwin. The age, however was not ripe for its acceptance. Such intellects as those of Johnson, Burke, and others their contemporaries, could not grasp the mighty theme. Poor Monboddo, will it be believed? was even mercilessly quizzed by these benighted "men of the past". The lustre of his genius, though reflected by another, has obtained its recognition only by a wiser generation: just as Galileo was persecuted, while Dollond is semi-deified—only with a difference. Ah! Mr. Editor, it is the reflection upon consummation such as this that makes the approach of old age so lamentable. What is not in reserve for our grandchildren, and why can't we live to see it all! Did not our great dramatist, the 'Divine Williams' as he has been superbly styled, foresee these wonders? When he made Mr. Puck talk of putting "a girdle round the earth in forty minutes," did he not prefigure the electric telegraph? Did he not warn his generation that there were hidden mysteries such as were not dreamt of in their philosophy, and have not the wise men of modern days developed them? Did he not speak of the Anthropophagi?—behold there are lots of them at the Fijis. Has he not talked of the "men whose heads do grow beneath their shoulders"? they *doubtless* exist in the regions about the Pole, and, when discovered, will there not arise another Darwin to trace their genealogy? Depend upon it, Sir, there is much in store, if not for us, for our posterity. Happy Posterity! who, while we are doomed to realize chiefly the bitters of Man's condition, are destined to enjoy the accumulation of these philosophic sweets which are apparently in store for them. Let us be comforted, however. It is hardly possible that the axioms of Euclid, and what we have been fondly accustomed to regard as the stern truths of the Multiplication Table, may remain unaltered—that is if the philosophers will only let them alone: so that after all the revolution may not be so great as I have dared to anticipate.

Enough, however, of this ponderous trifling. To be serious, then. If I have appeared to treat a grave subject with undue levity, it is not that I am unimpressed with its importance. It cannot be concealed that the recent work of Mr, Darwin, lauded by a certain portion of the press, and read extensively as it appears to be, is calculated to exercise a very baneful influence. I is not with the educated man, armed against specious fallacy and habituated to reason logically, that anxiety should lie: but it is for the less favored in this respect, and more especially for the young and inexperienced, dazzled by the prestige of a name and deceived by the display of great technical learning, couched in a style in itself highly attractive, that danger is to be apprehended; if we consider the genius of the age we cannot but be struck with the astounding advances it has made in the exact sciences—the industry and accuracy of research displayed in the grand results that have been attained It is only in speculative science that we are at fault. Once we tread on this field all power of correct reasoning seems to desert us. Systems of metophysics fundamentally false usurp the place of sound inductions. Locke is ignored. Bacon discarded. Of the business of this remark the recent publication of Mr. Darwin affords conspicuous example. One traces therein the evid nce of enormous industry in the collection of facts, transcendant capacity of observation, powers of intellect beyond the ordinary range: but when the application of the results of all this industry, and all this talent, is attempted, a lamentable failure is apparent. The materials for a noble structure have been laboriously assembled—the hand of the architect alone is wanting. Unskillfully applied, the materials are wasted: the foundation sinks; and like the card-castle of a child, the whole fabric topples to the ground. The metaphysical genius of the age, in short, is illogical, and of extreme tendencies: on the one side towards a chilling and soulless materialism, of which the work in question may be regarded as a dangerous exponent; on the other towards the opposite extreme, exemplified in the, so called, "spiritualistic" teachings of the day—on the one side the risk of madness, on the other the certainty of religious despair. Scylla and Charybdis. Happy he who, while shunning the vortex on the one hand, has strength to avoid the rocks upon the other: who, mindful of the Poet's maxim of the safe middle path, pursues the even tenor of his way, unswayed by allurements that surround him. Such a one can afford to go even beyond Mr. Darwin; and though he may decline to trace, with him his descent through the intervention of a monkey, may bow in humility, and acknowledge that, in common with the Monkey, he has at least proceeded from the Dust. This he may do, and doing this, while relying on a sublimer faith and more exalted teachings, may smile placidly at the metaphysical vagaries of those philosophists who seek to sway the weaknesses, or dominate the intelligence of our generation.

C. FRANCIS BARNARD, M. D.

SURGEON DENTIST.

DR. BARNARD WILL HAVE pursued his vocation of Dentistry in Victoria Five Years next August, and humbly solicits a portion of the public patronage for the coming decade.

We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, increased by an extensive practice of upwards of thirty years render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of full sets, or the partial remedying of natures loss and deficiencies.

Patience and gentleness are the governing principle the Doctor's office.

See his case of Specimen Work in Mr Roberts' window first store north of Langton House.

OFFICE AND RESIDENCE—Douglas Street, between Dr Powell's premises and Wilson's Tea Store. Business hours from 8 a m till 5 p m.

jy1 d&w is

Ayer's Cherry Pectoral.

FOR DISEASES OF THE THROAT AND LUNGS, SUCH AS COUGHS, COLDS, WHOOPING COUGH, BRONCHITIS, ASTHMA AND CONSUMPTION.

The few compositions which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. Is has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terror to a great extent and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by it time's use.

THE

UNK WEED !

REMEDY

—OR—

OREGON

RHEUMATIC CURE.

HISTORY.

This Remedy is composed of the active principle of the Unk Weed—Eng. Thaspium Cordatum Origbus Lat.—Indigenous to Oregon. Grows most abundantly and perfectly in Washington Co

PROPERTIES, ETC.

It contains an ACTIVE VOLATILE Principle, extracted by Ether, and a bitter TONIC Principle soluble in Alcohol.

MEDICAL PROPERTIES AND USES.

It is the most sure and speedy cure for

Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds

That was ever introduced in the Materia Medica. The UNK WEED REMEDY, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a

Powerful Tonic.

Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus building up and strengthening the system, while at the same time the volatile principle being absorbed in the Blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system.

There are a few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the system of the already enfeebled rheumatic patient, that their use has to be abandoned before specific effects are obtainable, hence the want of success in treating this prevalent and in consequence heretofore incurable disease

Unlike these Medicines, already known, the UNK WEED REMEDY, though introducing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong TONIC and recuperating element which admits of its continued use even by the most delicate and debilitated. Thus we have the combination for the first time of these two necessary elements in one remedy, which accounts for its superior and never failing curative effects in

Political.

Vancouver Island District.

To the Electors of Sooke, Lake, Saanich, Cowichan, Salt Spring, Nanaimo and Comox:

GENTLEMEN:—While traveling through your district in July last I was the recipient of very great encouragement to offer myself as a candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In soliciting your support at the forthcoming election it becomes my duty to express my views on Dominional politics having a direct bearing upon the interests of British Columbia, which I shall do as briefly as possible.

I shall be a staunch supporter of the present Government of Canada so long as that Government shall administer the affairs of the Dominion in general, and of this Province in particular, in a satisfactory manner.

Knowing the feasibility of the Canadian Pacific Railroad from personal observation along the greater part of the probable line of route, and having advocated such an enterprise in my "Overland Journal," published in Ontario, as well as on this coast for the past twelve years, I shall endeavor, by every means in my power, to bring that grand undertaking to a successful termination at Esquimalt or some other harbor on Vancouver Island.

I may here say that I am not in favor of introducing Coolie labor, either on the Railroad or other Public Works and will strenuously resist any attempt in that direction.

Should the Tariff problem not be solved by the Local Legislature, but a modification of the Canadian Tariff, in so far as agricultural produce is concerned, recommended, I shall make every possible effort to secure its adoption by the Dominion Parliament.

I am fully of the opinion that the Federal Government will place mail communication on a thoroughly efficient footing from Sooke to Comox, long before the reopening of Parliament. Should this, however, not be the case, I shall, if elected as your representative, see that every settlement is duly cared for in this important particular.

The subject of Immigration is one of great moment and shall always have my earnest support both in the House and elsewhere. With increased demand for agricultural produce, farm laborers will be required in every settlement. These will soon locate on unoccupied lands, together with men of small capital, and in their turn become producers. Their place will then have to be filled by others, so that a steady stream of immigrants from the Eastern provinces particularly would be the greatest possible boon to this portion of the Dominion.

The early commencement and completion of a Dry Dock at some Island port, and I think Nanaimo has a strong claim upon such a work, shall not be overlooked.

I shall advocate Vote by Ballot at Municipal, Local and Federal Elections till that great reform becomes the law of the land.

Telegraphy, Lighthouses, Harbor Improvements, Hospitals, Asylums, Penitentiaries, Fisheries, Geological and other surveys, together with the Indian question and other subjects that will be continually presenting themselves, shall have my constant consideration and advocacy wherever conducive to the material prosperity of the province in general and my constituency in particular.

I rest my claims upon your support, gentlemen, on my long residence in the Eastern Provinces and on this Coast—my intimate knowledge, from actual travel of the wants of every agricultural and nearly all the mining districts of the Province my unswerving support of Confederation and the Railroad since '59, and my having no special connection with any particular interest, commercial, agricultural or mining. I am thus enabled to look upon them all from an independent and impartial standpoint; and in advocating their best interests to assist in raising this Province of almost illimitable resources to the proud elevation it will soon attain as the Western outlet of the Great Dominion.

I have the honor to be, Gentlemen,
Your obedient servant,
se12 JOHN JESSOP.

To the Electors of Vancouver Island District.

GENTLEMEN:—In response to the solicitation of a number prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons, I have, after mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I, as a candidate, should advert to at least some of them that more directly concern your interests. I will say, then, that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire South-Eastern Coast of the Island from Johnson Straits.

Under the Terms of Union with the Dominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests during the next ten years. Should, however the question not be before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining and commercial interests of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast,—and also better mail facilities in each settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once and to erect others elsewhere as soon as possible, to ensure greater safety and certainty in navigating the Gulf.

With respect to the Indians I will urge that they be settled on Reservations, under the superintendence of Government agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo I deem to be deserving of serious consideration.

The Geological Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to do to ensure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The fisheries along our coast promise to become very profitable, and as the Dominion Government has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and Dominional character.

In conclusion, Gentlemen, if you should do me the honor to return me to the House of Commons as your representative, I pledge myself to faithfully serve your interests to the best of my ability.

I have the honor to be, Gentlemen,
your obedient servant,
ROBERT WALLACE
Victoria B C, August 31, 1871. au11

Miscellaneous.

ELECTRICITY IS LIFE.

PULVERMACHER'S

PATENT GALVANIC

CHAIN BANDS, BELTS

AND

Pocket Batteries.

THESE REMARKABLE AND HIGHLY improved inventions render Electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonising pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with. The daily increasing number of cures effected by PULVERMACHER'S MEDICO-GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention as the embryo of the universal remedy.

N. B—The following testimony from the elites of the English medical faculty has been received:

"We, the undersigned, have much pleasure in testifying that Mr J L Pulvermacher's recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.

Dated this 9th day of March, 1866

Sir Charles Locock, Bart., M.D., F.R.C.P.
Sir Henry Holland, Bart., M.D., F.R.S.
Sir Wm Fergnson, Bart., F.R.S.
Edward H. Sieveking, M.D., M.R.C.S.
Sir J. Ranald Martin, F.R.C.S."

PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet, gratis).

These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY.

PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine restriction of diet, or the least derangement of the patient's habits and daily occupations. In the following maladies:—

Rheumatism,	Tic Doloreux,	Sluggish circulation,
Gout,	Indigestion,	Urinary Disorder
Sciatica,	Deafness,	Paralysis,
Lumbago,	Spasms,	Epilepsy,
Neuralgia,	Female complaint	Nervous Debility
Head & Toothaches	Constipation,	Functional Disorders,
Liver Complaints,	Cramp,	&c

The effects of the application of Pulvermacher's Chains in any of the above disorders is immediately perceptible—the relief of pain instantaneous.

PRICE LIST OF PULVERMACHER'S CHAIN BANDS AND BATTERIES.

Chain Band for Nervous Deafness, Head, Tooth Faceache, and Noises in the Head. 21s. to 30s.

B. Chain Bands for Loss of Voice and other affections of the throat. 10s. 6d to 21s.

N. Chain Bands for Sciatica; Rheumatic, Neuralgic and Gouty Pains, Local Paralysis, Cramp, etc., 18s to 20s. and 40s.

B. Chain Bands for Lumbago, Indigestion, Liver, Chest and Functional Disorders, etc., (worn as a belt) 22s. to 40s. and 55s.

B, Chain Bands for Waiter's Cramp, Trembling, Nervousness, etc. 21s. to 30s. and 40s.

B. Combined Chain Band for Central Paralysis, Epilepsy, General Functional Disorders, etc., 30s. to 50s.

CAUTION A Perpetual Injunction in Chancery, dated 18th August 1869, was granted to J L Pulvermacher against Alfred Harrow, alias C D Hammond, alias Henry James, alias C D Ransbey, his assistants agents and servants restraining the said person or persons under penalty of £5000 from deceitfully advertising Belts, &c., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet of recent Testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz Dr Pereira's "Materia Medica," Dr Turner's Practice of Medicine," Dr Handfield Jones' On Nervous and Functional Disorders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St, London.

To the Unfortunate

New Remedies! New Remedies!

DR. GIBBON'S DISPENSARY

No 623 Kearney Street Corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and seminal diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcerated Legs etc., successfully treated.

DR. GIBBON has the pleasure of announcing to it he has returned from visiting the principal hospitals of Europe, and has resumed practice at his dispensary, 623 Kearney street, corner of Commercial where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness.

Seminal emission is the consequence of self-abuse. This solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Shallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like a rattling of leaves, or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples, and various eruptions about the face, hectic flushes, furred tongue fœtid breath, consumption, night sweats, monomania and frequently insanity. If relief be obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cured at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr Gibbon, case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain direction for use by inclosing $10 in coin, in a registered letter, through the Postoffice or through Wells, Fargo & Co.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.

Address: DR. J. F. GIBBON,
no27 1y P O Box 1957, San Francisco, California.

PRINTED AND PUBLISHED Daily by DAVID W. HIGGINS, at his Office Government Street, Victoria, B. C
